Who Should Get Tested?

Anyone experiencing any of the COVID-19 symptoms should get tested.

Anyone, whether or not they have symptoms, who has been exposed to someone who was confirmed to have COVID-19 should get tested right away.

The Public Health Department is also recommending testing for the following groups of people even if they do not have any symptoms:

> **Any frontline or healthcare worker who regularly interacts with members of the public and cannot maintain social distancing at work should ideally get tested once a month.**
> This may include those who work in **healthcare,** homeless shelters, jails and other custodial settings, food banks, public safety/emergency response, food service, grocery, construction, delivery, janitorial, transit, or social work, among other jobs. This does not include those who are able to maintain social distancing while at work, such as essential workers who work in a back office.

Any person who works in a skilled nursing facility should ideally get tested every two weeks.

Free COVID-19 Testing Santa Clara County

CALLING ALL CALIFORNIANS!

Every Californian can safely help their community during these difficult times. Here are some ways you can make a difference:

Deliver Meals
Vulnerable seniors are at greatest risk amid COVID-19. Let's help keep them safe and cared for. Contact your local Meals on Wheels organization, visit **www.mealsonwheelsamerica.org.**

Donate to a shelter or food bank
During this time organizations are running low on food items, help them stay well stocked for those in need.

Volunteer at a food bank
Food banks are in great need of volunteers to help pack and sort food. They are taking precautions to prioritize volunteer safety. Visit California Association of Food Banks at **www.CAfoodbank.org** to find a food bank near you.

Support Nonprofits
Nonprofit organizations serving vulnerable communities – like seniors and low-income families – need your help. Find a fund to donate to nonprofits in your community on the Philanthropy California COVID-19 Response Page: **www.philanthropyca.org/covid-19-response.**

Wellness Checks
Check on older neighbors with a call, text, or talk through the door.

Hygiene Kits
Create hygiene kits and drop off at a shelter for people experiencing homelessness to help them stay healthy and safe.

Donate Blood
Healthy, eligible donors are urged to come out and give to ensure there's lifesaving blood on the shelves for those who need it most. Visit the Red Cross: **www.redcrossblood.org.**
